DH-P5

Scan-Code SIP Unattended Parking Intercom Post

An integrated self-service payment and video intercom dual-function flagship post, which serves as the core front-end terminal for high-end commercial parking lots and fully unattended parks.

- **Scan-Code Payment**
- **HD Video Intercom**
- **SIP Protocol Compatibility**
- **Audio-Video Linkage**
- **Native Integration with Parking Systems**

IP65 Outdoor Protection

ONVIF Protocol Support

1080P HD Video Resolution

Clear Audio Communication

Reliable & Efficient Operation

Specifications

Processor	High-performance Embedded SOC Processor	Network	Wired/WiFi/4G
Operating System (OS)	Embedded LINUX Operating System	Network Port	10/100M Adaptive Ethernet Port
Sensor	2MP CMOS Sensor	Ground Sensor/IO Interface	3 Channels Input
Video Compression	H.264/25FPS	Power Supply	AC 220V
Audio Input	Built-in High-sensitivity Omnidirectional Microphone	Power Consumption	⩽15W
Audio Output	Max. 20W	Overall Dimensions	1250mm×150mm×90mm
Compression Standard	G.711, G.713, GSM, DAC	Base Dimensions	230mm×170mm
Gate Open/Close Interface	1 Channel Gate Open Relay, 1 Channel Gate Close Relay	Material	Zinc-plated Steel Sheet
QR Code Interface	1 pc	Operating Temperature	-30°C~75°C
Card Swipe Interface	1 pc
