HIGH-END VISUAL INTERCOM COLUMN

Yellow HELP Visual Intercom Alarm Column

Model DH-B02Z

01 Overview

Functionality and aesthetics, in one security solution

It does not compromise security capabilities while blending seamlessly into high-end scenarios. A new, exclusive emergency safety solution for premium projects — not a replacement for traditional alarm columns.

Key Features

SHORT LIST

- ✓ Minimalist integrated design balancing aesthetics and landscape, 360° high visibility
- ✓ Lightweight cylindrical column fixed with flanges for quick open-area installation
- ✓ Anti-mistouch design, zero water ingress failure, anti-aging, maintenance-free
- ✓ HD two-way intercom suited to high-end acoustic environments
- ✓ 360° audio and light alerts balancing deterrence with user-friendliness
- ✓ Fully SIP-compatible, seamlessly integrates with existing smart systems

Specifications

Processor	High-performance embedded SOC processor	**Network Protocol**	SIP、TCP/IP、DNP
OS	Embedded Linux OS	**Network Port**	10/100M adaptive Ethernet port
Sensor	2MP CMOS sensor	**Alarm Interface**	3× Dry Contact Input, 2× Dry Contact Output
Network	4G / Wired	**Power**	POE/DC 12V 1A
Video Compression	H.264/25FPS	**Power Consumption**	10W
Audio Input	Built-in high-sensitivity omnidirectional microphone	**Material**	Brushed aluminum panel + Q235 hot-dip galvanized steel
Audio Output	Built-in 5W speaker + 30W amplifier output	**Dimensions**	2200mm×140mm, thickness 2mm (actual thickness)
Audio Format	G.711、G.713、GSM、PCM	**Operating Temperature**	- 30°C~75°C
Audio Quality	Professional echo cancellation and noise suppression
